B. New Business

Greg Bouljon gave the Treasurer's report and it was accepted by the board.

Tom Greene requested the group purchase 15 cubic yards of compost from the City of Davenport at a cost of \$155.00. Tom suggested we use this to cover the flowerbeds. Tom also requested the purchase of potting soil from Corncrib Nursery at a cost of \$300.00. Tom had contacted Wright Tree Service about free mulch for our group and Vickie Koker to send them a thank you for that mulch.

Stephen Mueller gave a report on the status of the Greenhouse. There were some items due final inspection prior to occupancy. Some of those items were demonstration of the heating system, water outlets on the outside of the building, fans would only work on high speed and some electrical outlets need repair. Steve would contact the City to resolve these issues.

Stephen Mueller also reported that the City would be laying the concrete at the front entrance of the greenhouse.

Stephen Mueller presented the group with a copy of the draft use agreement for discussion. That agreement was discussed and Stephen would present to Milt Hand.

Mary Carson asked the board for permission to purchase 4-8ft tables, 2 small racks and 1 large rack. This request was discussed and agreed that Mary would purchase those items.
